Credit Suisse Floating Rate High Income Fund
December 31, 2017

Investment Approach
The fund seeks long term capital appreciation above its benchmark, the Credit Suisse Leveraged Loan Index, by investing in a diversified portfolio consisting primarily of senior secured loans to non-investment grade companies.

Portfolio selection is based on research-driven investment philosophy consisting of bottom-up, fundamental analysis of senior secured bank loans and other debt securities.

Fund Goal and Investment Risks

The fund’s primary investment objective is to provide a high level of current income and its secondary objective is capital appreciation.

Portfolios contain investments rated below investment grade. These investments are speculative in nature and are considered to have a high degree of investment risk. Such assets have greater default risks, greater exposure to market volatility and liquidity risks when compared to investment grade debt obligations.

There may be limited liquidity for some of the securities that the fund invests in due to the lack of a secondary market, while transfer restrictions on the securities will further limit that. Portfolios invest in globally denominated assets, some of which may be subject to a greater degree of regional economic conditions and sovereignty risks. As portfolio investments may be denominated in currencies other than the reference currency, the overall value can be impacted by changing exchange rates.

Investment Team

The Credit Suisse Credit Investments Group is responsible for the day-to-day portfolio management of the fund. The current team members are John G. Popp, a Managing Director, Thomas J. Flannery, a Managing Director, Wing Chan, a Managing Director, and Louis Farano, a Managing Director. Messrs. Popp, Flannery, Farano and Ms. Chan have been members of the Credit Suisse Credit Investments Group since 1997, 1998, 2006 and 2005, respectively.

From time to time, the fund’s investment adviser and co-managers may waive some fees and/or reimburse some expenses at any time, with which performance would be lower. Waivers and/or reimbursements are subject to change. Returns represent past performance and include change in share price and reinvestment of dividends and capital gains. Past performance is no guarantee of future results. The current performance of the fund may be lower or higher than the figures shown. The fund’s yield, returns and share price will fluctuate, and redemption value may be more or less than original cost. Performance information current to the most recent month-end is available at www.credit-suisse.com/us/funds.

1 Percentages and characteristics are as of 12/31/17 and may have changed subsequently. This is not a recommendation to purchase or sell securities.

Quality ratings by Moody’s Investors Service or Standard & Poor’s Rating Group or, if unrated, deemed by Credit Suisse Asset Management, LLC to be of equivalent quality. 2 Duration is a measure of the expected life of a fixed-income security that is used to determine the sensitivity of a security’s prices to changes in interest rates. The longer a security’s duration, the more sensitive it will be to changes in interest rates. 3 The fund itself has not been rated by an independent rating agency. Credit quality ratings on underlying securities of the fund are received from S&P and Moody’s and converted to the equivalent S&P major rating category. This breakdown is provided by Credit Suisse and takes the mean rating of the two agencies when both agencies rate a security differently. If only one agency rates a security then that is all that is provided. Unrated securities do not necessarily indicate low quality. Below investment-grade is represented by a rating of BB and below. Ratings and portfolio credit quality may change over time. 4 The current maximum initial sales charge for Class A shares is 4.75%, and is waived with respect to certain investment advisory clients, investors in employee retirement, stock, bonus, pension or profit-sharing plans, certain registered investment advisers and broker-dealers with clients participating in comprehensive fee programs, and certain other investors. The current maximum contingent deferred sales charge (“CDSC”) for Class C shares is 1.00% during the first year.

5 Estimated fees and expenses are taken from the prospectus dated 2/28/17, as amended 3/21/17. Net fees are reported net of fee waivers and expense reimbursements. Gross fees do not include these waivers or reimbursements. Waivers and expense reimbursements or credits are voluntary and can be discontinued at any time.

6 Without waivers and/or reimbursements, not including sales charges, the 30 day SEC yields would have been: for Class I shares, 3.75%; for Class A shares, 3.49%; and for C shares, 2.75%.

C Credit Suisse Leveraged Loan Index is designed to mirror the investable universe of the U.S. dollar denominated leveraged loan market. Investors cannot invest directly in an index.

Fund shares are not deposits or other obligations of Credit Suisse Asset Management, LLC or any affiliate, are not insured by the Federal Deposit Insurance Corporation and are not guaranteed by Credit Suisse Asset Management, LLC or any affiliate. Fund investments are subject to investment risks, including loss of your investment.

The fund’s investment objectives, risks, charges and expenses (which should be considered carefully before investing), and more complete information about the fund, are provided in the Prospectus, which should be read carefully before investing.
